Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process for removing arsenic from a hydrocarbon wherein the catalyst used in the process has a support comprising alumina and nickel wherein the nickel is present in the support in an amount of no more than 1 weight percent and wherein the catalyst comprises at least 8 weight percent nickel, at least 8 weight percent molybdenum, and between about 0.1 to 3 weight percent phosphorus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references disclose nickel-containing catalysts and/or arsenic removal processes.
